

the body module being manufactured so that one end will mate with and overlies an end of a tailgate module of a side loader RCV and a rear loader RCV and so that the other end will mate with an end of a hopper module of a side loader RCV [and a rear loader RCV].

REMARKS

The basis for the amendment is found at page 12, line 6 and 7 of the specification. Where it is set forth that the hopper module of a rear loader is usually manufactured as part of the tailgate module. Therefore, claims 15 and 21 have been amended to remove the incorrect portion of the claims.

In view of this amendment and the previous amendment and remarks, it is hoped that the application is now in condition for allowance. If Examiner has concerns, please call Applicant at 623-362-2671 or 928-520-0420.

Respectfully submitted,

Albert W. Davis Jr.
